REVENUE

Stabilization & Systems

By 2022, we moved from crisis mode to strategic infrastructure. We expanded The Hub as a cost-saving environment for 20+ **community partners, allowing small nonprofits to focus limited dollars on direct services rather than overhead.**

We maintained a consistent presence in 19 shelters, distributing food, clothing, and literacy bags, while integrating **pandemic lessons into hybrid Youth Preneur programming.**

"The Hub nonprofit Coworking Community has been instrumental in amplifying our reach and impact at For The Better Inc. This year, with their support and resources, we've been able to touch the lives of 2,000 individuals and successfully secure an additional \$50,000 in funding. Their collaborative environment has empowered us to grow and thrive in ways we couldn't have imagined."

PROGRAM EXPENSE RATIO

Estimated portion of budget going directly to programming.

MODEL OF EFFICIENCY

Our high expense ratio and shared-resource model align perfectly with funders prioritizing capacity-building and cost-effective service delivery.
